SUMMARY

Passionate about User Experience (UX) and Inclusive Design. I have five years of development experience, including one year of professional experience in creating websites for a network of dedicated clients as a Frontend Developer.

WORK EXPERIENCE

CODETREEBD
Frontend Developer

Oct-2021 - Feb-2022

My work responsibilities are as follows:

- Taking initial brief from stakeholders, discussing with team to brainstorm about concept generation and conducting competitive audit and analysis.
- Developing prototype based on Client's feedback.
- Developing User Interface (UI), User Experience (UX) and Visual Design.
- Test project for usability, also ensure browser compatibility.
- Work on QA (Quality Assurance) with multidisciplinary team (Frontend development, Backend development and App development), and reassigning task to the respective team.
- Installation of hardware components and other peripherals related to developed project in project sites (outdoor work).
- Additionally, I worked as intern supervisor for the company.

PROJECT EXPERIENCE

Bellow are some of the project that I have worked on:

01 **PRIVATE UNIVERSITY INFORMATION SYSTEM**
Role: Lead Developer
The project was designed and developed to provide admission related information to the students seeking admission. For the backend development I have used PHP and MySQL, and Google Authenticator for two step verification. Frontend was done with HTML, CSS, bootstrap and JavaScript.

02 **BOOK FINDER**
Role: Lead Developer
At the university library when someone has taken a book and reading it at the library table, there was no data that shows who has taken the book and at what table it is. The project was designed to keep the history and help students find the books. For the project, we made a device using Arduino, so when a student took a book at a table at the library, he has to scan the book at the table and that would automatically update the book name and table ID in the bookshelf display.

SKILLS

- JavaScript/ECMAScript 6
- jQuery
- Bootstrap 5
- SCSS/CSS
- Laravel Blade Template
- TailwindCSS3

Applications
- Figma
- Adobe XD
- Adobe Photoshop
- Adobe Illustrator
- Microsoft Office

LANGUAGE

English - Fluent
Hindi - Intermediate
Bangla - Native

PERSONAL DATA

Date of Birth
April 15, 1998

Father's Name
Md. Lutfor Rahman

Mother's Name
Sumsun Nahar

03   **TOLETX**
Role: Frontend Developer
The goal of the website was to provide owners to list their assets and services for rental, and help visitors find desired accommodation such as shared room, place for exhibition, picnic spot and warehouse etc. I have worked on preparing the visual elements, and user interface in such manner that it supports dark mode and light mode.
